Manual Test Scripts

Test Scenario 1:

    Given:

        city id = 2643743

        app id = 9d50450a48809637b4862bdcb125927d

        GET https://openweathermap.org/data/2.5/weather?id=2643743&appid=9d50450a48809637b4862bdcb125927d

    Expected:

        Temp = <Today's Temp in London in celsius>

        Humidity = <Today's Humidity in London>

        Description = <Today's Weather Description in London in celsius>

        Temp min = <Today's Minimum temperature in London in celsius>

        Temp max = <Today's Maximum temperature in London in celsius>

Test Scenario 2:

    Given:

        city id = 2988507

        app id = 9d50450a48809637b4862bdcb125927d

        GET https://openweathermap.org/data/2.5/weather?id=2988507&appid=9d50450a48809637b4862bdcb125927d

    Expected:

        Temp = <Today's Temp in Paris in celsius>

        Humidity = <Today's Humidity in Paris>

        Description = <Today's Weather Description in Paris in celsius>

        Temp min = <Today's Minimum temperature in Paris in celsius>

        Temp max = <Today's Maximum temperature in Paris in celsius>

Test Scenario 3:

    Given:

        city id = 5128581

        app id = 9d50450a48809637b4862bdcb125927d

        GET https://openweathermap.org/data/2.5/weather?id=5128581&appid=9d50450a48809637b4862bdcb125927d

    Expected:

        Temp = <Today's Temp in New York in celsius>

        Humidity = <Today's Humidity in New York>

        Description = <Today's Weather Description in New York in celsius>

        Temp min = <Today's Minimum temperature in New York in celsius>

        Temp max = <Today's Maximum temperature in New York in celsius>

Test Scenario 4:

    Given:

        city id = 2643743

        app id = 9d50450a48809637b4862bdcb125927d

        GET https://openweathermap.org/data/2.5/weather?id=2643743&appid=9d50450a48809637b4862bdcb125927d

    Expected:

        Temp = <Today's Temp in Delhi in celsius>

        Humidity = <Today's Humidity in Delhi>

        Description = <Today's Weather Description in Delhi in celsius>

        Temp min = <Today's Minimum temperature in Delhi in celsius>

        Temp max = <Today's Maximum temperature in Delhi in celsius>

Test Scenario 5:

    Given:

        city id = 1850147

        app id = 9d50450a48809637b4862bdcb125927d

        GET https://openweathermap.org/data/2.5/weather?id=1850147&appid=9d50450a48809637b4862bdcb125927d

    Expected:

        Temp = <Today's Temp in Tokyo in celsius>

        Humidity = <Today's Humidity in Tokyo>

        Description = <Today's Weather Description in Tokyo in celsius>

        Temp min = <Today's Minimum temperature in Tokyo in celsius>

        Temp max = <Today's Maximum temperature in Tokyo in celsius>
